## GOODWJ

## GOODWE COMPANY PROFILE

GoodWe is a leading, strategically-thinking enterprise which focuses on the research and manufacturing of PV inverters and energy storage solutions. With an accumulative installation of 23 GW installed in more than 100 countries, GoodWe solar inverters have been widely used in residential and commercial rooftops, industrial and utility scale systems, ranging from 0.7 kW to 250 kW . GoodWe inverters offer reliable operation and excellent performance and are well recognized by customers worldwide. GoodWe's philosophy is to always create win-win partnerships with customers by identifying and integrating the most advanced components and maufacturing techniques available while offering an unparalleled after-sales service.

Technological innovation is GoodWe's main core competence. With an in-house R\&D team of approx. 500 employees in two R\&D centers, GoodWe can offer a comprehensive portfolio of products and solutions for residential, commercial and utility scale PV and storage systems, ensuring that performance and quality go hand-in-hand across the entire range.

GoodWe has set up an integrated service system for pre-sales, in-sales and after-sales and has established service centers worldwide, aiming to offer global support to all customers including project consulting, technical training, on-site support and after-sales service.

## GOODWE

## A-MS Series

(North America only)
5-9.6. KW I up to 4 MPPTs I Split-phase

The A-MS is an inverter of the highest quality and we take great pride in it. This product was conceived to be a solid element of your residential array for the long term. Put your faith and confidence in its quality, its extended warranty of 10 years and GoodWe will be on your side for any issue along the way.

Compatible with Bifacial Panels

AFCI \& Rapid Shutdown

A-MS Series

## Technical Data
