

Place your trust in the market leader
and take control of your energy needs with

Q.HOME CORE Energy Storage Solution

Qcells offers a full suite of complete energy solutions to complement any home

Our newest generation of Q.HOME CORE provides

One Brand. One Warrantor

- A single source for your inverter (Q.VOLT), battery system (Q.SAVE), backup interface (Q.HOME Hub) and our high-quality, industry-leading PV modules.
- Backed by Qcells' inclusive 10-year product warranty on all Q.HOME CORE components and best-in-class customer support.

Smart Design and Scalable Solutions

- The flexibility and scalability of Q.Home CORE enables a wide range of storage capacities to suit your home's electricity consumption needs.
- Up to 200A Whole Home Backup.
- Standard integrated Revenue Grade Metering.
- 150%-200% oversizing for DC coupling and high energy yield.
- Superior protection with NEMA4X enclosures that can be installed outside or inside.
- Available in 4 power classes of inverters: 3.8 and 7.6. Hybrid or AC-coupled.

Simplified Installation and Commissioning

- Save valuable time on installation with:
 - Modular stacked battery system – no wiring or conduit required!
 - Lightweight inverter
 - Options for both floor and wall mounting.
- Smart commissioning available on the web and mobile app.

Complete Energy Solutions from a Single Brand

Compact Design and Sleek Appeal

Save floor space with a single battery system and inverter tower in a modern, uniform design that maintains the home's aesthetics.

Safety and Reliability

Designed with safety in mind. Q.HOME CORE includes an integrated PLC rapid shutdown solution. Lithium iron phosphate (LFP) batteries provide longer lifespan and increased safety.

Ideal Complete Solution

Q.VOLT, Q.SAVE and Q.HOME Hub pair perfectly with Qcells modules for a full suite of clean energy solutions for any residence.
