

## Heavy duty, true sine wave inverters

Available in:

12 V

24 V

Offering superior quality sine wave output, the Prosine 1000i and Prosine 1800i stand-alone inverters are ideally suited for electrical systems that already have a quality multistage battery charger. Designed for recreational and industrial applications, Prosine inverters are suitable for both heavy duty and sensitive electronic loads. The inverters are lighter and more compact than others with similar power ratings because they use high-frequency switching technology in the power conversion process.

### Product Features

- » Two models available: 1000 watt (1500 watt surge) and 1800 watt (2900 watt surge)
